# Easy: Systevo Mobile – a powerful solution for care givers

All benefits from the integrated solution

# Systevo Mobile – a powerful tool for care givers

High-end processing capabilities: fast usage of applications.

Larger display screen improves accuracy when reading and makes data entry easier and more accurate (larger virtual keyboard).

Easily swappable battery pack that powers the device around the clock.

Durability testing will help to keep nurses productive and enable long device life-cycle.

Design that replaces multiple individual devices (scanner, pager, VoIP phone...) improved user satisfaction and is cheaper for the hospitals to implement.

Enterprise grade WiFi connectivity developed in-house from years of experience.

Increases productivity and throughput with an integrated and easy-to-use imager.

Housing is ready for cleaning.

Touch screen can be operated with most gloves.
